BOOK ANNOUNCEMENT

Visionary Novelist invites You to a Spiritual Adventure

In a novel that has been compared with *The Alchemist* by Paulo Coelho and *The Way of the Peaceful Warrior* by Dan Millman, the award winning author Ross Hostetter takes the reader on a visceral journey into the wilderness that results in personal awakening. This book weaves real-world spiritual teaching within an epic spiritual adventure story – a story that transports the reader into a world where the extraordinary becomes ordinary, and where the terrible power of nature is the master teacher.

Spending time in the Canadian wilderness was one of Hostetter's favorite pastimes as a young man. On one extended canoe trip, he met a remarkable mentor and spiritual friend who led him to an experience of enlightenment. "My motivation in writing the book was to uncover each stage of the spiritual journey; to offer a window into the process of awakening; and to do this in story form. I wanted to help someone feel just what it's like to be inside the skin of someone who's striving for their highest potential."

Readers have been rewarded with a book that has been described as the "first great spiritual adventure story of the 21st century."

"Wow, such a significant, wonderful read! Part strongly engaging and often roaringly funny story-line, part journey of awakening, part mystical adventure, all with a bright ring of authenticity and a felt sense of undeniable truth."
— Marina Francis, Creator of the *Coming Home to Eat* © Coaching Programs.

"Hostetter weaves leading-edge spiritual wisdom and sophisticated cultural insight into an exciting tale of mystery and enlightenment. I highly recommend this jewel of a book."
— Steve McIntosh, Author of *Evolution's Purpose* and *Integral Consciousness and The Future of Evolution*
